

NickNack likes to add. He knows numbers can be added in any order. Check it out! **Add** the numbers on the acorns. Change the order on the problem in the last acorn. Then write the problem and answer.

Top-left acorn: $1 + 2$ and $2 + 1$

Top-right acorn: $4 + 1$ and $1 + 4$

Bottom-left acorn: $6 + 1$ and $1 + 6$

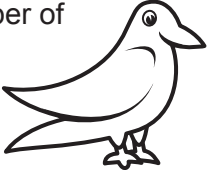

Bottom-right acorn: $7 + 1$ and $1 + \square$

Look at the picture of the scarecrow on the farm. Then answer the questions below.

<p>Write the total number of</p>  <p>_____</p> <p>-----</p> <p>_____</p>	<p>Cross out 2.</p>	<p>How many are left?</p> <p>_____</p> <p>-----</p> <p>_____</p>
--	---------------------	---

<p>Write the total number of</p>  <p>_____</p> <p>-----</p> <p>_____</p>	<p>Cross out 2.</p>	<p>How many are left?</p> <p>_____</p> <p>-----</p> <p>_____</p>
--	---------------------	---

<p>Write the total number of</p>  <p>_____</p> <p>-----</p> <p>_____</p>	<p>Cross out 2.</p>	<p>How many are left?</p> <p>_____</p> <p>-----</p> <p>_____</p>
