

# Student Roster

## Edit Student Accounts

This guide shows educators and administrators how to edit and customize student accounts. Student accounts can be customized by assigning achievement badges based on age range, accessibility of language translation capabilities, and the ability to customize proficiency expectations.

- 1 Click on a group from the Student Roster tile

The screenshot displays the MY TOUCHMATH dashboard for George Test School 001. The user is Lauren Costello. The dashboard features a grid of tiles for various functions: Student Roster (8), Student Platform (4), Resources (8), 1st-2nd Math Block, 5th Grade Intervention (4), Practice & Games (2), Create New Group, Collections (2), Reports (7), and School Calendar (Dec 31 - Dec 30). The 'Student Roster' tile is highlighted with a red box, and a dropdown menu is visible below it, showing 'Small Group A' selected. On the right side, there is contact information for the Account Lead Administrator (George Jiang), Account Co-Administrator (Lauren Costello), and TouchMath Customer Service. The footer includes the version number (2.0) and copyright information (©2024 TouchMath® All Rights Reserved), along with links for Privacy and Terms.

2 Click on the Edit Student icon
