

Digital Intervention

Student Experience

This guide provides educators and administrators with information on how to start and customize the student experience.

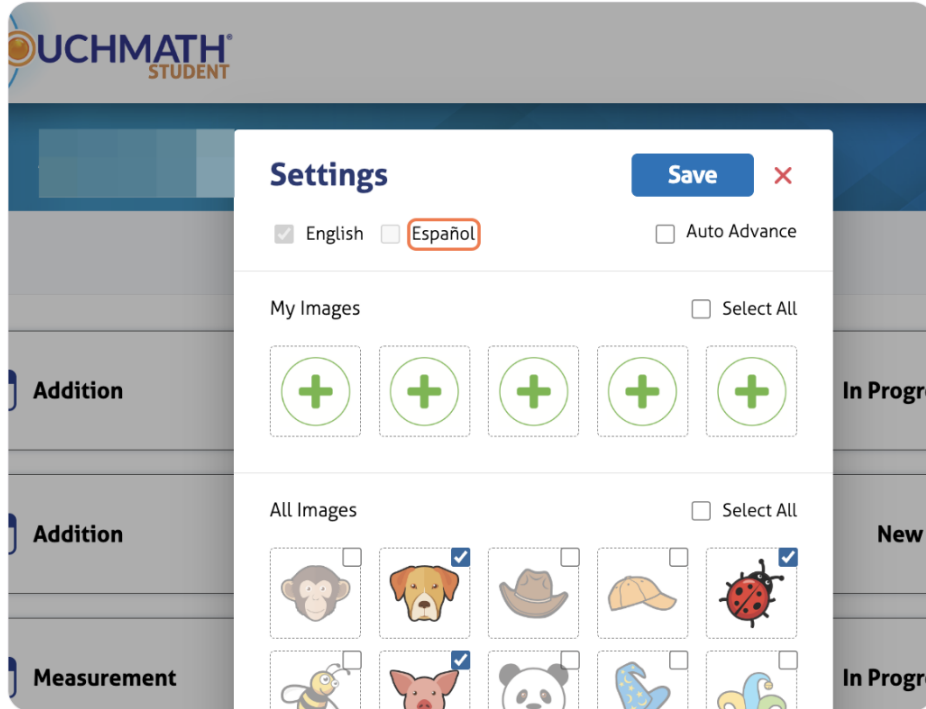

- 1 To quickly and easily start a student session, select the dropdown list from the Student Platform tile and select the name of the student who is starting a session

Note: Only students who have a green play icon next to their name have lessons assigned and are ready to start a student session

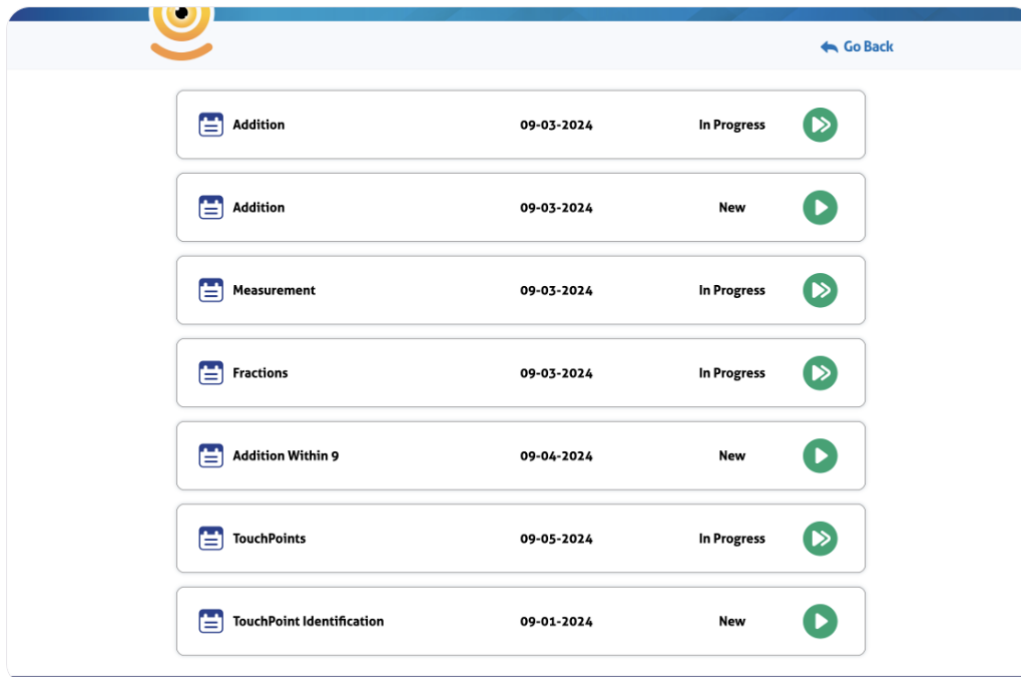

Welcome Lauren!

11 Student Roster	11 Student Platform	8 Resources
4 Curriculum	1st-2nd Math Block	2 Games
6 Collections	5th Grade Intervention	31 - Dec 30 Calendar
	Small Group A	
	Chandler C, 101520171	
	Chesney C, 08252021	
	Declan F, 121520	
	Isla W, 987650	
	Ivy J, 555555	

- 2 Select the Setting icon next to the name of the student to customize settings and images. Easily translate to Spanish content, select auto advance to auto advance trials, upload personalized images to use throughout the lessons, and select images from a preset list to use

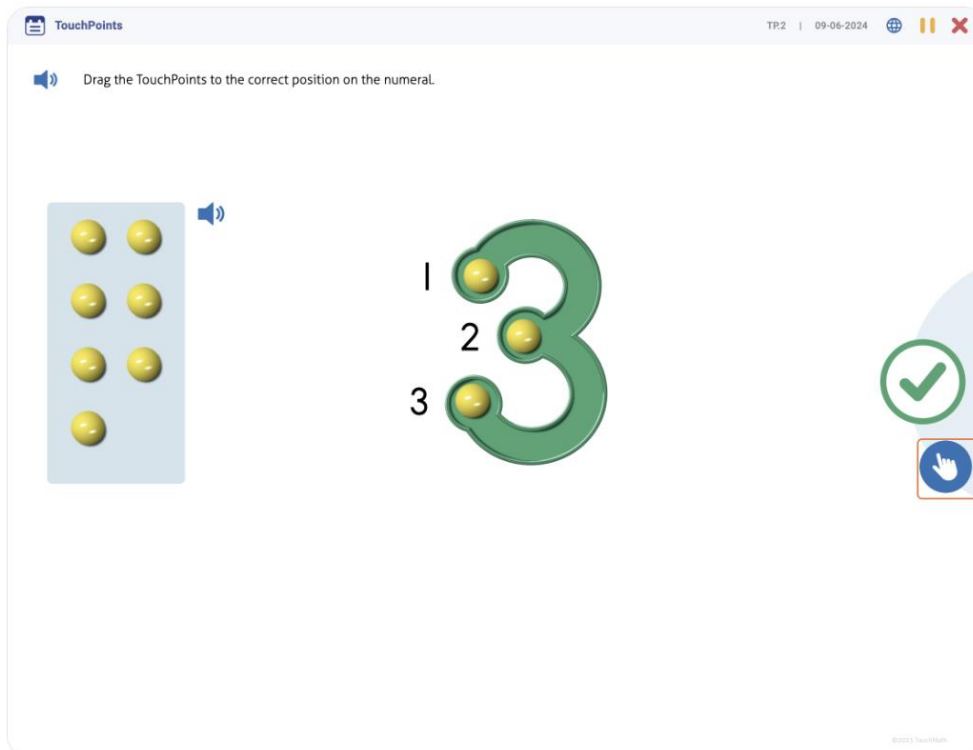

- 3 From the student dashboard, easily view a list of lessons assigned to the student. To begin a lesson, select a green Start or Restart icon

- 4 After starting a lesson, students will interact with the student experience in many ways. Varied response options, accessibility tools, and engagement features are thoughtfully embedded throughout the platform

- 5 Use the touch icon to select, drag, and drop.

6 Use the pencil icon to draw, write, or solve problems

TouchPoints TP2 | 09-06-2024

Drag the TouchPoints to the correct position on the numeral.
