

MINI MEMORY MART

Welcome to the Mini Memory Mart – a fun and hands-on way to boost your student's memory, counting skills, and real-world math confidence! By “shopping” from memory, kids practice focus, number sense, and categorizing, all while having a blast playing store. Perfect for early learners, this game turns everyday grocery items into powerful tools for brain-building and math mastery. Ready to shop smart and remember fast? Let's get started!

MINI MEMORY MART

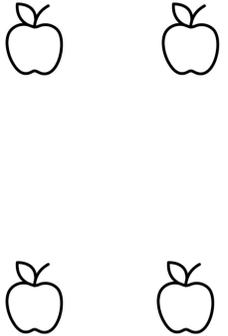

Color your cards, cut them out, and place them face down. Try to make a pair by matching two of the same cards. Need more ideas? Use the included grocery lists to search for certain fruit or make up your own!
